Experienced cybersecurity leader with achievements as SOC Lead and Head of Presales, R&D. Strengthened digital security through vigilant operations, driving innovation, and client-focused solutions. Led cross-functional teams, optimized processes, and converted complex concepts into actionable strategies for defense and revenue growth.

EXPERIENCE

Head of Presales, Research, Development, and Deployment, Protergo   **Aug 2023 – Present**

- Led a high-performing team of researchers and developers to deliver innovative products and solutions.
- Oversaw market research efforts to identify emerging trends and technologies, guiding R&D initiatives and ensuring competitive advantage.
- Played a pivotal role in client presentations, product demonstrations, and negotiations.

Security Operation Manager, Protergo   **Apr 2022 – Jul 2023**

- Managing Resources Maintain SOC Analyst KPI based on SLA
- Plan and Develop SOC-related products and processes'
- Perform Deep Analysis with SIEM and other supporting tools (WireShark, SOCradar, VirusTotal)
- Oversees up to 20+ clients SIEMs and T1 analysts
- Maintaining up to 90% asset/network visibility by making sure SIEM is in good health
- Making sure SIEM is up to date with the latest detection signature for IDS and vulnerability detection for Vulnerability Assesment
- Provide support, technical problem solving and analysis for Enterprise XDR and Firewall solution

Security Analyst, Protergo   **Sep 2021 – Apr 2022**

- Perform security monitoring and reporting of clients' network
- Utilized AlienVault USM SIEM technology
- Deliver possible solutions and mitigations against existing threats to client

PROFESSIONAL CERTIFICATION

(eJPT) eLearnSecurity Junior Penetration Tester, eLearnSecurity   **7593150**

(NSE 3) Network Security Expert Level 3: Certified Associate, Fortinet   **ohn1Y8lc73**

EDUCATION

Asia Pacific University | Staffordshire University, BSc (Hons) Cyber Security   **CGPA 3.7, First Class**

Final Year Project: APU H4CKVERSITY, Hacking learning platform for universities – **GPA 4,0**

SKILLS

- Offensive Security: Network, and Web App Penetration Testing, Vulnerability Assesment, Basic Exploit Development
- Digital Forensics: Malware Analysis, Reverse Engineering, and Data Recovery
- Security Operations: SIEM, Threat Intelligence and Hunting, Detection Engineering, SOC Resource Management, Incident Handling and Response
- Scripting, Programming & Tools: C, Python3, Bash, SQL, Javascript (NodeJS), PHP, OpenVPN, Virtualization (VMware, VirtualBox), Git

ACHIEVEMENTS

Gold Medalist and Best Video Award Virtual Innovation Competition 2021, UiTM Kelantan, Malaysia   **2021**

First Place APU Internal CTF 2021, APU Forensics and Security Research Center Student Section, Malaysia   **2021**

Runner-up Regional Cyber Challenge 2019, Cyber8Labs and Silensec, Australia   **2019**
